

OPERATORS OPPOSE SIX-HOUR DAY, FIVE-DAY WEEK DEMANDS

Would Mean Increased Wages and Place Limitation on Production.

MINERS QUOTE HOOVER

An Advocate of the Short Work Day; Claim Increased Cost to Consumer is Due to "Excessive" Profits. Not to Increase in Wages of Miners.

Special to The Courier
WASHINGTON, Jan. 28.—Upon the resumption of the hearings yesterday before the commission of three appointed by the President to investigate the bituminous coal industry, Don Rose, an attorney at Pittsburgh, representing the operators of the Freeport district, denounced the demands of the miners for a 60 per cent wage increase along with a six-hour day and a five-day week as "unthinkable and un-American."

Mr. Rose told the commission that the operators could not believe that the miners' organization seriously advocated the six-hour day with a five-day week, and he declared that such a proposition meant industrial chaos for the nation.

As we view it said Mr. Rose the miners' demand for a six-hour day and a five-day week coupled with his demand for time and a half for overtime and double time for Sundays and holidays, seeks to achieve two results. First an indirect increase in wages, and second limitation upon production. Under the Lever law both these propositions are illegal. We regard them as an attempt to make the miner a favored class."

At the outset of the hearing, Chairman Henry M. Robinson announced that the commission would go into the manner in which the recent 14 per cent wage increase to the miners had been applied. Miners' representatives had charged before the commission that some of the operators were passing this advance on to the public instead of absorbing it. The operators have informed the commission that the 14 per cent advance, so far as they know has been used by the industry for the purpose of making the miner a favored class."

The miners' representatives submitting statistical data before the commission in support of their demands for an advance in wages shorter working hours, and other points in controversy. The operators data to back up their opposition to the miners' demands will be put before the commission later in the week.

In the presentation of the miners data Van H. Bittner of Pittsburgh urged the six-hour day, declared that Herbert Hoover, former Food Administrator had said he would not work men in the mines in shifts over six hours "if he had the opportunity." He cited this, he said to show that Mr. Hoover was an advocate of the six-hour day for the mine.

Along with the presentation of the statistical data by Mr. Bittner the miners prepared a statement, summarizing the grounds on which their demands for a wage increase with overtime payments were based. The miners declared that all their wage increases received during the war period including the 14 per cent increase do not equal the increase to the cost of living and that the present wage is "even more inadequate than the pre-war wage."

It was also alleged by the miners that the increase in the cost of coal to the consumer has been due to excessive profits of the coal industry rather than to wage increase, that earnings and profits have been out of proportion to increased costs of production and that the 14 per cent wage increase has been passed on to the public.

We cannot believe that the miners' organization seriously advocates a six-hour day with a five day week said Mr. Rose. It is an un-American proposition. If it is good for the miner, it is good for the man in other walks of life. The clerk who works in a dingy office over a desk with artificial light is in more need of a six hour day than the man who toils.

We do not believe that the miner is gladder in this demand. We believe that he does not hope for a six hour day unless there is coupled with it time and a half for overtime in which he will work eight or ten hours as the case may be and thus convert the grant of the demand into a wage increase.

The inconsistency of the 14 per cent demand as workdays are concerned is self evident. The demand that double shift of work on coal for commercial tonnage be abolished is a direct attempt to limit production.

We submit that the demand for a 60 per cent increase if granted together with the six-hour day and five-day week and time and a half for overtime, would put a price upon the cost of coal that would stagger the American people that it would create a wage and working condition and hours of leisure far above any other class of American labor.

In objecting to the statement that the miners' demands were "un-American" Continued on Page Two.

PRESBYTERIAN SUNDAY SCHOOLS ARE FLOURISHING

Rapid Growth in Both School and Church Work at Lisenburg and West Lisenburg.

Under the supervision of Rev. William Hamilton the pastor and Mr. Simmons, Mr. MacBurney and other workers the Presbyterian church at Lisenburg is getting and keeping a firm and strong foothold in its place among the front line schools. The Sunday school is increasing in attendance and interest and a year full of benefits is being looked forward to. In the past there was trouble in keeping the auditorium heated but since the heaters have been repaired the church is very comfortable.

Rev. Hamilton has charge of the mens Bible class and as he is a live wire the class is growing and the goal is to increase to 50 men in the next few Sundays. This class reorganized last Sunday. It meets at 9:45. The Sunday school at West Lisenburg was never better organized than at the present time. And all departments of church life pulsate with religious energy. The recent reports of both secretary and treasurer are most encouraging. The secretary reported an average attendance of 90 during 1919 with 115 last Sunday. The treasurer reported \$301.58 taken in offerings. The offering on January 4, was \$12.25 and last Sunday, \$3.60.

Last Sunday the church was crowded for the stereoscopic lecture on "The Life of St. Paul." The offering was \$9.60. According to all appearances 1920 is going to be the banner year. Harry Hamilton is superintendent and R. K. Warnock assistant.

PHYSICIAN ARRESTED

Dr. George Bradford, Greene County, in Net of Revenue Agents.

Unaware that a federal warrant for his arrest had been issued charging violation of the war-time prohibition act, Dr. George M. Bradford of Mount Morris, Greene county, traveled the 20 intervening miles to the nearest railroad, and arriving in Pittsburgh yesterday applied at the internal revenue office in the federal building for necessary government forms so that he might, write liquor prescriptions. His arrest followed. He was released on \$1,000 bail.

Complaints had been received at the Department of Justice it is said, which charged that Dr. Bradford was "demoralizing Mount Morris" by selling whisky. The information charges that a government agent procured a quart of whisky from the physician without a prescription. Dr. Bradford is well known in Fayette county, his practice taking him over the southern end of the county.

MULLANE LEAVES SLIGO

J. N. E. Olson Will Be in Charge of Steel Plant; Working Almost Full.

William P. Mullane, vice president of the Sligo Iron & Steel company in charge of operations has resigned to accept a similar position with the Interstate Iron & Steel company of South Chicago. The position will not be filled out but J. N. E. Olson works manager will have general charge of the plant with C. C. Kape as mill superintendent.

Before leaving Mr. Mullane was presented by the employees with a gold watch and chain while the Amalgamated Association of Iron & Steel Workers gave him a silk umbrella and a silver smoking set.

Sligo is running at practically full capacity with orders for several months on the books.

SAVED BY A TREE

Motorist Crashes Limb as Car Goes Over 200-Foot Embankment.

By Associated Press
WHEELING, W. Va., Jan. 28.—Harry McGlumphy, an automobile salesman of this city narrowly escaped death last night when he grabbed a limb of a tree as his machine skidded over a steep embankment near Elm Grove.

The machine landed in a hollow 200 feet below after turning over five times and was completely destroyed by fire. Exploding gun shells which were in the machine caused a hold up a arm to be sent to the county authorities.

AGAIN CONTINUED

Adelaide Mann, Case Held Over Until Saturday Afternoon.

Leo Bitter of Adelaide, arrested on a charge of aggravated assault and battery and who is alleged to have robbed the post office at Broad Ford was given a partial hearing before Alderman Fred Mink last night but the trial was continued until Saturday on account of insufficient evidence.

Postmaster Francis W. Heccegman and several Broad Ford boys were the only witnesses present. Bitter did not testify.

MOYIF SPRINGS SOON FOR MOUNT PLEASANT METHODIST CHURCH

Special to The Courier
MOUNT PLEASANT, Jan. 28.—The motion picture sermon will be introduced in Mount Pleasant soon. If a machine has been purchased can be installed by Sunday. Rev. J. B. Knox pastor of the Methodist Episcopal church will deliver his first illustrated sermon that day. He hopes to have the machine ready for use.

Mr. Reibel is the new field secretary of the Pennsylvania Christian Endeavor Union coming just recently to this state from Ohio where he served as field secretary and intermediate superintendent of the Ohio union. Although he has been in the state only a few months he has made much progress. This will be his first visit to this county. He will speak on "The Loyal Campaign."

Mr. Hamilton is a national field secretary for the United Society of Christian Endeavor Boston Mass. He has had considerable experience in dealing with young people and is very popular with them. He has been a field secretary for a number of years and is considered one of the best conference men in the field. In addition to his address he will conduct a conference of Christian Endeavor methods. Mr. Hamilton has just recently returned from France where he was the Christian Endeavor overseas representative. He spoke in Unlontown about four years ago and those who heard him are anxiously waiting to hear him again.

In connection with this rally the county executive committee will hold its semi-annual meeting. This meeting will be held promptly at 7:30 P. M. The committee is composed of county officers and superintendents and the president and corresponding secretary of each society. Everybody is invited to attend the rally.

In addition to his address he will conduct a conference of Christian Endeavor methods. Mr. Hamilton has just recently returned from France where he was the Christian Endeavor overseas representative. He spoke in Unlontown about four years ago and those who heard him are anxiously waiting to hear him again.

In connection with this rally the county executive committee will hold its semi-annual meeting. This meeting will be held promptly at 7:30 P. M. The committee is composed of county officers and superintendents and the president and corresponding secretary of each society. Everybody is invited to attend the rally.

OPERATORS OPPOSE SIX-HOUR DAY, FIVE-DAY WEEK DEMANDS

Continued from Page One.
 can. Acting President Lewis of the miners said that the miners yielded to no one in their allegiance to the American flag, the government, and the traditions of the country. "We do not propose to be tried as to our allegiance to those principles and ideals, at the whim of every individual who may disagree," said Mr. Lewis.

Mr. Bittner, in presenting statistical data for the miners said the demand for a 50 per cent wage advance was figured so as to include losses sustained by the miners during the period from November 1917 to December 1918, when they had no wage increases, yet had to meet a constantly rising cost of living. If this loss was spread over the next 24 months and raises granted to bring wages up to present living requirements, he said, it would amount to 50 per cent computed on a 1918 wage basis.

The miners' demand for a six-hour day, five-day week, which he characterized as a request for the opportunity for more work, had been misconstrued by the public, he declared, as an attempt to shorten the working hours. Average wages in the mining industries had not increased in the same proportion as in other basic industries, said Mr. Bittner, who quoted figures tending to show that the average increase for most of the miners was 50 per cent over the 1914 scale, whereas in the iron and steel industry they had risen, for most men, up to 125 per cent, and in the railroads about 75 per cent.

BETTER THAN PLAYING THE "FAVORITE SON" GAME.

One out of ten voters will readily agree with Governor Sprout that the "favorite son" game doesn't appeal to me. I have seen too many of them. They will further agree with him that it is not the place of the governor of a great state to capitalize the performance of his duty for the gratification of further political ambition.

Controlled by this high sense of duty Governor Sprout means to go ahead in his present course without yielding to the temptation to use his office as a means of creating a "favorite son" boom for the presidency which has become a very active industry in many of the states.

By own feeling, Governor Sprout said at the Kendall dinner in Washington "that we should endeavor to make our great state a factor in the Republican National Convention by selecting delegates of force and influence who would make themselves felt in the deliberations at Chicago. Our great delegation are our position as the premier Republican state entitled to a place of importance. If we are united and harmonious, our plans and action we may do much to bring about a result as to candidates and platform in accord with the sentiment of our people—we might even be able to nominate a Pennsylvanian.

In these direct, forceful statements Governor Sprout has defined the duty of Republicans so clearly that none can misunderstand him. Unity and harmony are more important, and necessary than an elaborate plan for promoting the candidacy of a favorite son. If the delegates selected are men who are truly representative of the aims and policies of the party and in touch with public sentiment, they can make themselves felt in the deliberations of the convention. In that event the matter of selecting a candidate to stand for the issues of the campaign will be comparatively easy, so easy perhaps, that, as Governor Sprout has said, "we might even be able to nominate a Pennsylvanian."

DISAPPOINTING PROGRESS.

To those thoughtful and interested persons who have been following the course of events in the industrial world in the hope that some measure of method will be evolved that will provide for an adjustment of labor questions without resort to strikes or lockouts it will be a distinct disappointment to note the attitude of the miners of Kansas toward the law recently enacted by the legislature of that state creating an industrial court.

Under the act the industrial court is to consist of five commissioners appointed by the governor. The commission will take over the present Public Utilities Commission and will pass upon industrial disputes in the essential industries. It will have broad powers of investigation into working and living conditions and the adjustment of wages. The right of collective bargaining is fully recognized. Provision is made for the incorporation of labor unions making them legal in law for damages same as corporations and other employers are now liable.

As a protest against the new law 400 miners have struck at two mines Alexander Howat state president of the union who figured as the only mine leader, against whom action was pressed in Attorney General Palmer's proceedings to compel obedience to the injunction issued during the last general miners' strike, states that the strike was not authorized but came as a result of the miners' opposition to the measure which he further says, "is also shared by Kansas labor in general."

This attitude is deplored not alone by Governor Allen who sees in it "open defiance of the laws of the state," but by all those persons who have been earnestly striving to have other and more amicable means of adjusting labor question.

The fundamental principle of the law is that every individual worker has the right to cease employment but he must be willing to concede to other men the right to work if they elect to do so. The plan under which the industrial court is to operate is intended to provide a just tribunal save Governor Allen in which a fair and impartial adjustment of grievances may be made under the guarantee of the state. The employee has equal rights with the employer before the tribunal and both have the same privilege to present their claims and both the obligation to abide by the decision of the court.

making any concessions whatever in the interests of harmony and good will between employers and employees. Until that spirit and disposition can be shown by both of the interested parties in wage controversies we are not going to advance much toward a realization of it. We hope that the cost of production and the consequent cost of living will approach a level where both will cease to be a burden. Neither will we go beyond the "force" stage as the instrumentality for the settlement of wage and hours of work disputes. The public has suffered so long and so much from this method that it has the right to expect that out of the turmoil, travail, loss and sorrow we have suffered because of industrial disturbances a more modern, a more enlightened and a fairer and more equitable plan—such as the industrial court provides—will be accepted by both labor and capital as a much needed substitute.

The closing of the net like some of the 43 is also still missing. Of course the importation of \$25-300,000 worth of diamonds and precious stones in 1919 as compared with the previous high water mark of \$15,000-200,000 worth in 1918 has nothing to do with the high cost of living. It merely enabled some people to keep up the cost of high living.

Is This Part of the "Missing 43?"

Greensburg Tribune
While District Attorney A. A. Cort and his assistants were busily engaged Thursday afternoon preparing the trial list for the February term they were startled by a loud report in the office that sounded much like that of a French 15 in action World War veteran.

Investigation revealed that the dynamic force in one of the jugs filled with alcohol which stood in Mr. Cort's office, that was captured by County Detective Paul L. Felthousen from the truck load on Tuesday had sent the so-called cork out with great force up against the ceiling of Mr. Cort's office right under the spot where County Commissioner W. Dick Deamer sits. A great volume of a porcelement steam from an engine carrying a peculiar odor arose from the open jug and filled the private office.

The jug was carefully rechecked and the district attorney and his assistants declared this jug contained the most vigorous delinquent they had ever observed in captivity.

The Last Fond Smell.

Fayette City Journal
He sat on the steps of an obscure building on Market street the other evening with his elbows on his knees and his face in his hands. His vision was towards the pavement. The scribe, who happened to be passing, noticed the odor of liquor. "Snooping over the apparently sober and we asked if he was ill. Looking up into our faces he said: "Do you see that broken bottle lying there in the street? That cost me \$1.00. I let it fall a moment ago and these my lamps went out. I just said to myself that I would not come here and enjoy the fragrance of the atmosphere as long as there was any of it left. I have done that small thing (sob) Well, that small cost me twelve bucks and there is no telling when I'll get another one. I'm going to get here till the cows come home. I'm Old Man Zero is staring me in the face."

SON OF HEAD OF HEALTH BOARD IS ILL OF INFLUENZA

Case is First to be Reported to Authorities at Mount Pleasant.

POLICE QUESTION IS SETTLED

Council Decides Two Officers Are Adequate for the Public Safety Under Existing Conditions and Turns Down Plea of Business Men.

Special to The Courier.
MT. PLEASANT, Jan. 28.—The first case of influenza this season made its appearance yesterday. The victim is Billy Marsh, eight years old, son of Dr. W. A. Marsh, president of the board of health. The case is a mild one.

Cards have been distributed over the town warning the people against the disease and setting forth precautions to be observed to prevent contracting it.

The management of the Leader store notified the board yesterday that it will fumigate its establishment daily during the time that there is danger of the disease breaking out.

The board asks that all cases of influenza be reported promptly. Police Force Remains Same. Council last night, after hearing a communication from business men, decided that the two members of the police force are adequate for the protection of the town. It decided against an addition to the force. Later in the evening the police committee and the burgess got together and agreed on the following schedule of service by the officers: Chief Robert Smith, 9 A. M. to 7 P. M.; Patrolman Joseph White, 7:30 P. M. to 12:30 A. M.

The report of the auditors, C. H. Jaquette, John Miller and Frank Elbert, was submitted. When the Fayette County Gas company discontinued free service the borough lockup was left without heat. Council ordered that a coal stove be placed in the building. There has not been a prisoner for nearly two months but it was felt wise to be ready in an emergency.

New Superintendent Qualified. Miss B. M. Truesdell of Cleveland, Ohio, who has accepted the position of superintendent of the Memorial hospital, was lately superintendent of the Wichita, Kan., hospital. She is a graduate of the Margaret Pillsbury General hospital, Concord, N. H., post-graduate of the New York Polytechnic and the Presbyterian hospital, New York City, and took a supplemental course in institutional management and training school work at Columbia university. For a time she served as president of this board of nurses examiners in New Hampshire, which office included that of inspector of nursing schools of the state. She comes highly recommended.

Personal. Mr. and Mrs. Harry Dillon on Saturday left for Donora to visit Mr. and Mrs. Paul Mullin.

Mrs. Emma Thirman on last Friday returned from Donora where she visited friends.

STATE GRANGE MASTER WILL LECTURE FRIDAY AT FLATWOODS CHURCH

Appearance Is Under Auspices of the Farmers of Locality and All Are Invited.

Special to The Courier.
FLATWOODS, Jan. 27.—John A. McSperran, master of the Pennsylvania State Grange, will lecture in the Flatwoods Baptist church Friday evening. The program will begin at 7 o'clock with music by the Perry high school mandolin club. The lecture will be at 8 o'clock. Admission will be free.

John and William Armstrong of Perryopolis and N. C. Pierson attended a gathering of old schoolmates at the home of Miss Jennie Rankin of Uniontown on last Wednesday evening.

The incorporation of the Flatwoods cemetery is interesting to many people of this and other communities who have friends buried there.

While Strickler of Star Junction, who has been in the Cottage State hospital, Connelville, is able to be around and commended work on last Monday. He underwent an operation. Thomas Sessler of Uniontown spent Sunday at his old home here.

John Shiley has moved from Allia to the house of Mrs. Anthony Page, Franklin township.

John Blaney is having his large tract of timber sawed and delivering it to market.

Little Miss Dorothy Cunningham, who was operated on some days since for a bruised leg, is now able to walk and improving daily.

The gas leaking fever in this locality is at its highest. Not a place we know of but that an option is being taken.

In Memoriam. Of our only child, Charles James, son of Charles James and Myrtle Burley (nee Cathoun), aged 3, died one year ago today, January 24.

The golden gates were open. A gentle voice said come. And angels from the other side, Called out loved one home.

Sadly missed by parents and grandparents, Mr. and Mrs. Charles Burley, Sr., Philadelphia; Mr. and Mrs. George W. Cathoun, Evans, Pa.; and Mrs. A. M. Burley, Philadelphia, Pa.—Adv-28

THE KITCHEN CABINET

We mount to heaven mostly on the ruins of our cherished schemes. Anding our failures were successes.

DISHES FOR OCCASIONS.

Some of these dishes may be a little too expensive for every day, but will be enjoyed as a company dish.

Roast Goose.—Since the goose and wash in hot soda water, scrubbing gently with a small brush. Rub and dry well before drawing. Stuff with any desired stuffing such as sage and onion, apple and prunes, potato or chestnut filling. Lay this slices of pork over the breast and bake in a hot oven for an hour. Then pour off all the fat, sprinkle with salt and pepper, dredge with flour and bake until tender, basting frequently and dredging with flour each time. A small goose should bake two hours; if basted often. Remove the goose from the pan, add browned flour and water to make the gravy. Season to taste. Garnish with apple cups or baskets filled with apple sauce.

Celery Stack.—Take fine, deep-grooved celery without removing the leaves. Fill the stalks with requestor mixed with cream and paprika. Arrange in the form of a stack on a handsome plate.

Scalloped Oysters.—Take one quart of oysters, one-half cupful of melted butter, two cupfuls of crumbs, half a cupful of cream, one tablespoonful of lemon juice, salt and pepper to taste. Butter a shallow baking dish and sprinkle it a half-inch deep with crumbs. Put in half of the oysters and pour over them half of the butter and half of the lemon juice mixed. Then add another layer of crumbs, the remaining oysters and butter with lemon juice. Sprinkle with salt and pepper. Strain half a cupful of the oyster liquor. Add to it the cream. Beat and pour slowly over the oysters. Bake in a brick oven for twenty minutes.

Caramel Blanc Manger.—Mix one and one-half tablespoonfuls of gelatin with three tablespoonfuls of water. Cook half a cupful of sugar to a dark brown sirup. Add the gelatin to the sirup. Boil for five minutes. Add one-half cupful of cream, two tablespoonfuls of sugar, a pinch of salt and one teaspoonful of vanilla. Strain into a wet mold and turn out when firm. Decorate with stars of whipped cream and preserved cherries.

GREENSBURG LEVY HIGHER

Millage for General Purposes Increased One and a Half Mills.

Special to The Courier.

GREENSBURG, Pa., Jan. 28.—Rising cost in everything that goes into the upkeep of a municipality from the feed for the borough horse to a raise in wages for the policemen, was the controlling factor at the meeting of the finance committee of the Greensburg borough council Monday night at which time a recommendation for a 12 mill levy was made. This is an increase of one and a half mills for general purposes and two mills to care for bonded indebtedness.

Last year the expenditures of the borough amounted to \$142,024.25 while the receipts were \$135,524.94, the expenditures over receipts amounting to \$6,499.31.

Chairman David P. Hudson, of the finance committee suggested that a bond issue ranging from \$30,000 to \$50,000 be floated to care for the growing expenses of the borough. Other members objected to this. Chairman Hudson announced that the council will have to face the raising of about \$150,000 to run the borough during the year. The borough is in debt \$125,000 and all that can be secured by taxation is \$114,000.

Dawson.

DAWSON, Jan. 27.—Judson Goldsboro, a well-known Pittsburg & Lake Erie conductor, has been laid up the past few days with an attack of quinsy.

Donald McGill spent over Sunday with his cousin, Marvin Pryce, Connelville.

Mrs. Arthur Fiskelson and Mr. and Mrs. Charles Lingle were Pittsburg visitors Saturday.

Edward Rowe of Jacobs Creek visited friends and relatives Saturday.

Mr. and Mrs. Clarence Brower of Glassport spent Sunday at the home of J. W. Brower, North Dawson.

Miss Emma Rowe of Jacobs Creek spent Sunday at the home of Mr. and Mrs. Charles Lingle.

DRUG REGULATIONS

NOT STRICTLY OBEYED

BY ALL PHYSICIANS

Complaint received by Courier-Refers to Some Practitioners in Connelville.

The Courier has been asked to print the appended regulations governing the execution and filling of prescriptions for narcotic preparations. It is said Connelville physicians pay no attention to the regulations. No names are given in the complaint. The regulations follow:

Art. 118. Responsibility.—The duty of properly preparing prescriptions, as upon the practitioner, and he is liable to the penalties provided by the act in case of failure to insert the information required by the law. A prescription may be prepared by a secretary or agent for the signature of a practitioner, but the practitioner will be held responsible in case the prescription does not conform in all essential respects to the law and regulations.

Art. 119. Manner of execution.—Practitioners.—All prescriptions for drugs and preparations not specifically exempt under section 6 of the act must be dated as of and signed on the day when issued and must bear the full name and address of the patient; and the name, address, and registry number of the practitioner. A physician may sign prescriptions in the same manner as he would sign a check or legal document, as, for instance: J. H. Smith, John H. Smith, or John Henry Smith. Prescriptions must be written with ink or indelible pencil or typewritten; if typewritten, they must be signed by the practitioner with ink or indelible pencil.

Druggists.—The druggist who fills a prescription will show on the back of the packet the signature and address of the person who secures the drug or preparation prescribed and must preserve the prescription for a period of two years from the date indicated thereon.

CONSERVATIVE BANKING

It Means That a Bank Is a Safe Bank When You Say Conservative.

The Citizens National Bank, 138 Pittsburg street, Connelville, is a conservative bank. Its safety and security is protected in every way known to modern banking. Large commercial banking and small savings are considered in the same careful way.—Adv.

COTTDLE FIVE AND UNITY FRAT GO EXTRA PERIOD

Mill Town Y. M. C. A. Seniors
Claim Tie at End of Game;
Win 40-38.

LOCALS ARE OUTWEIGHED

Visiting Team Has Big Advantage in
Sag; Game Has Big Crowd on Edge
Throughout; Macabees-Greensburg
Game Tonight at High School Gym.

In one of the most bitterly fought
contests witnessed in this city for
some time, the Unity Fraternity team
lost out in an extra period to the
Scottdale Y. M. C. A. Seniors at the
armory last night, 40-38.

According to the Connellsville scor-
er the Frat won by a point at the final
whistle, but the Scottdale officials held
that he had a tie score. Several oth-
ers, watching the game and keeping
individual scores, gave the frat the
contest by a point but to satisfy the
visitors and leave no room for com-
ment on unfair treatment, Captain
Crowley of the locals agreed to an
extra five-minute period.

In the extra period, Scottdale, in a
desperate attempt, tried a long field
goal, the ball going through the net.
Each team also secured a foul goal
in the extra session.

Scottdale led at the end of the first
half, 15-14, but throughout the second
period the game belonged to any one.
Just as the final whistle blew Captain
Crowley dropped a long one through
which won the game according to the
local scorer.

Scottdale made some substitutions
in the second half. Bloom, taking
Steel Smith's place, did not play.

The score:
FRATERNITY: Porter 10, Brown 10,
Lyon 4, Robinson 4, Crowler 4,
Alderfer 4.

Substitutions: Bloom for Steel
Smith, Miss 10, Bloom, Butterworth
for Robinson.

Field goals: Brown 9, Gues 8, Lyon 4,
Porter 2, White 2, Steel Smith 2.
Foul goals: Brown, 6 out of 10;
Williams, 12 out of 16.
Referee—Wall.

High school varsity has one thing
in some of the fellows on the faculty
team today. There are no sore backs
or muscles in the bunch of younger
blobs.

Next Monday another Uniontown ag-
gregation will come to Connellsville.
It will be the Penn team, which will
go against the Army club at the
armory.

The Unity Frat had everything on
Scottdale last night but right. The
Mill Towners sure had that.

Three 22s in a row were unlucky
for the high school quintet yesterday
afternoon. With the score tied at
22-22, there were only 22 seconds left
to go when Hall scored his second
basket of the game, winning for the
faculty.

By actual count, Broderick Gross-
man yesterday got the tip from the
high school seniors once.

Superintendent Ashe refereed the
game yesterday afternoon. Between
halves he gave an exhibition of some
pretty shots—the kind he used to
make when his name was on every lip
as the leading athlete in his school.

No one is supposed to have any-
thing to say concerning a basketball
contest but those engaged in it and
the officials. However, there are a lot
of Connellsville fans who are still
firm in their belief that the Unity
Fraternity should have had the game
played at the armory last night.

Hall, the new physical director at
the high school, made his first "pub-
lic appearance" on the faculty team
yesterday afternoon. He played a for-
ward. Scoring two field goals, he
got the one that was needed to win
the game.

Just when another pool match be-
tween Scottdale and Connellsville cue
artists can be arranged is uncertain.
Scottdale is well satisfied to have got-
ten away with the first game and is
not anxious to take chances of losing
this honor on further contests.

A follow-up of the Macabees team re-
marked last night that Scottdale's
team would have to improve consid-
erably before it tackled the local
Knights.

Although no games for the near fu-
ture have yet been definitely arranged
by the Unity Fraternity, a Carnegie
Tech team may come here. The quin-
tet is anxious to play in Connellsville.

High school girls say there never
will be a victory this season so im-
portant as their win over the West
Newton "champions."

Men like Superintendent Ashe are
needed to referee basketball contests.
Somehow or other, no one had the
courage to protest a simple decision.
Something unusual in a floor game.

In the high school family-variety
game yesterday afternoon, there was
only one marvellous feature, according
to Mr. Grossman. That was when the
referee did not throw the ball high
enough, making it necessary for him
to stoop at times while jumping cen-
ter.

VARSITY DEFEATED IN LAST 22 SECONDS BY HIGH SCHOOL FACULTY

Teachers Play Game of Lives Against
Younger Quinter and Escape
By a Hair.

The high school varsity lost to the
faculty by two points but proved it
self a worthy foe at the gymnasium
yesterday afternoon. The final score
was 24-22. The game was witnessed
by a packed auditorium of students
and teachers, who affirmatively "raised
the roof" with yells.

The Varsity was up against some-
thing real in the faculty five. Contrary
to tradition, the faculty yesterday
afternoon was not made up of "stiff
back numbers" but younger teachers
well versed in the game.

High school held a one-point lead
at the opening of the game, and kept
it close touch with the professors
throughout. Closing on a 23-22 point
lead, the Varsity became dangerous
towards the close of the game. With
a score of 22-20, Driscoll cut in a
pretty side shot and tied the score.

Less than a half-minute remained to
play and the faculty by a pass to Hall,
who was in the clear, allowed him to
score a goal, winning the game.

The score:
Varsity: Driscoll 10, Alderfer 10,
Hall 4, Skowron 4, Grossman 4.

Faculty: Skowron 10, Hall 10,
Jones 4, Grossman 4, Alderfer 4.

Substitutions: Mountain for Jones;
Tommy for Mountain; S. Melnick for
Meneles.

Field goals: Driscoll 10, Alderfer 4,
Hall 2, Skowron 2, Folk, Francis,
Meneles, Mountain, S. Melnick.

Foul goals: Alderfer 4 out of 9;
Driscoll 4 out of 6; Hall missed 2.
Referee—Ashe.

MACABEES TONIGHT

K. O. T. M. Basketball Team Will Play
Greensburg at High School.

The Macabees will make another
appearance before the sport-loving
public tonight when the Greensburg
Collegiate, who claim to have de-
feated all team in that vicinity, come
here.

The Macabees have not yet lost a
game this season and do not intend to
allow the Westmoreland county quin-
tet break the record. No further
games have yet been scheduled by the
Macabees, as the team does not in-
tend to finish the season unless it re-
ceives more support. The game to-
night will probably decide finally re-
garding further contests.

JACK SHARKEY IS SURPRISE

Sturdy Little Fighter Pleases Boxing
Fans by Defeating Jimmy Wilde,
English Fly.

Jack Sharkey surprised the boxing
fans by the manner in which he
scored over Jimmy Wilde, the En-
glish flyweight champion, in their re-
cent bout at Milwaukee. Sharkey was
given the popular decision over his
opponent, having the better of Wilde
in the greater number of rounds.

Jack Sharkey.

Sharkey is known as a sturdy, aggres-
sive fighter and is quite popular
around Milwaukee. The manner in
which he held the famous English
glove artist in check gives his fighting
stock a big boost.

After the fight Sharkey praised
Wilde by saying that he is one of the
greatest men for avoiding blows that
he had ever seen or met. "He seems
to get away from a blow without mov-
ing," the fact is," says Sharkey, "he
just moves his head or body enough
to let the blow pass. Half the time
when you do hit him it is only a glanc-
ing blow."

The Mount Pleasant Superiors play
the McKees-Rocks team at the Mount
Pleasant armory on Friday night.

ture have yet been definitely arranged

tet is anxious to play in Connellsville.

CARELESSNESS HAD MORE VICTIMS THAN 19 MONTHS OF WAR

Casualty List of Peace in 1918 Un-
tained 80,000 Deaths and 250,000
Persons Seriously Injured.

While we hear that the advance in
sanitation and general knowledge of
how to take care of health have stead-
ily been lengthening the average age
of man in this country, there still
comes disconcerting news about the
results of carelessness.

An officer of the National Safety
Council reports that the United States
had a larger casualty list in 1918 than
the army had in 19 months of war. He
places the number of men, women and
children killed by accidents in this
country last year at 80,000, and the
number seriously injured at more than
250,000. Our battle deaths during the
war and the number of men dying in
camp overseas from disease or from
accident are given as 77,388 and the
number of wounded at 215,000.

Medical skill and the work of the
Red Cross could go far toward keep-
ing down the death list in war, and
they have performed wonders in bat-
tling against disease at home, but
against "pure carelessness," which is
the usual explanation of mishaps,
nothing but an awakening of every in-
dividual can avail. So it is plain that
the people have a task of fighting
carelessness just as they have one to
prevent the recurrence of war, and
this, of course, involves regard for
the ordinary rules of health as well
as "watching one's step" to avoid
mishaps.

Meanwhile, the "grim reaper," in
the steadiness and relentlessness of
his ordinary operation, will claim an
appalling enough toll. But the in-
creasing population, despite wars and
epidemics adding to other destructive
causes, show Nature's regard for the
race. While the deaths within the
population of the United States in 1917
have been estimated at 1,325,000, the
births in the same period have been
placed at more than 1,850,000. The in-
fant mortality rate, however, con-
tinues high.

The greatest war, after all, is
against disease, because it demands
constant alertness and action.

The Cleveland Makes Good Because it IS so Good

"The Cleveland is in a class by itself." That's the answer from owners of the
new Cleveland Six all over America.

The Cleveland has made good with the public in such a big way, because it is
so good.

Men of engineering and manufacturing skill, and
of high ideals, devoted three years to the develop-
ment and perfection of the Cleveland Six before they
offered it to the public. Experimentation was worked
out in the Cleveland Company's laboratories and
shops and in constant tests on the road; not in the
hands of owners.

So the Cleveland has made good.

The thousands of Cleveland Sixes that have gone
out to owners since last July are performing as few
cars, indeed, can perform. The power and life of its
motor, its remarkable comfort in riding, the ease of
handling, the beauty and graceful style of its body
designs, the excellence of its finish and upholstery,
truly place the Cleveland Six in a class by itself.

We cannot tell you how good the Cleveland Six is.

You must drive it and ride in it to know.

URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading
Druggist of Covington, Ky., Who Has Made
Special Study of Catarrh.

Says: Inflamed Nostrils
Invite Influenza

People who say that catarrh is
a disease not to be taken serious-
ly are harshly rebuked by a Ken-
tucky druggist who has for years
been much interested in the
growth of this loathsome, yet al-
together too common disease.

He claims that the sore, tender,
inflamed membrane of the nos-
trils and throat is a prolific
breeding ground for germs—not
only the germs of influenza, but
many other kinds as well.

If people would only stop ex-
perimenting for two weeks and
try a simple remedy made of
Mentholized Arcline mixed with
enough boiled water to make a
full pint, half of the catarrh in
this country would be abolished.

It's really no joke for people
who don't know about this simple
recipe to be constantly sniffling
and snuffling, blowing and hawk-
ing, when all these obnoxious
symptoms as well as the foul dis-
charge can be made to disappear
in a few days.

Ask for three-quarters of an
ounce of Mentholized Arcline—
that's all you need and after you
have mixed it with enough boiled
water to make a pint, gargle the
throat twice daily and sniff or
spray some up the nostrils, as di-
rected.

The tender nostrils will soon
lose their soreness, heal up, and be
clean and healthy.

soon as anyone in the family gets
a cold in the head, check it at once
with this same medicine.

As Taglar struggled with the bonds which secured the ankles and wrists of his captive, the great lion that eyed the two from behind a nearby clump of bushes wormed closer to his intended prey.

The ape's back was toward the lion. His first intimation of impending danger was the thunderous and triumphant roar which the charging lion could no longer suppress.

Source pausing for a backward glance, Taglat abandoned the unconscious woman and fled in the opposite direction from the horrid sound which had broken in so unexpected and terrifying a manner upon his startled ears; but the warning had come too late to save him, and the lion, in his second bound, alighted full upon the broad shoulders of the anthropoid.

As the great bull went down there was awakened in him 'to the full' all the cunning, all the ferocity, all the physical prowess which obey the mightiest of the fundamental laws of nature, the law of self-preservation, and turning upon his back he closed with the carnivore in a death struggle so fearless and abandoned that for a moment the great Numa himself may have trembled for the outcome.

Rolling over and over upon the turf the two battled with demoniac fury until the colossal cat, by doubling his hind paws, far up beneath his belly, sank his talons deep into Taglat's chest, then, ripping downward with all his strength, Numa accomplished his design and the disemboweled anthropoid, with a last spasmodic struggle, relaxed in limp and bloody dissolution beneath his titanic adversary.

Scrambling to his feet, Ruma looked about quickly in all directions, as though seeking to detect the possible presence of other foes; but only the still and unconscious form of the girl, lying a few paces from him, met his

rage, and with an angry growl he placed a forepaw upon the body of his kill and raising his head gave voice to his savage victory cry.

For another moment he stood with fierce eyes roving to and fro about the clearing. At last they halted for a second time upon the girl. Like two yellow-green augers, wide and unblinking, the terrible eyes remained fixed upon Jane Clayton. The erect and majestic pose of the great frame shrunk suddenly into a sinister crouch as, slowly and gently as one who treads on eggs, the devil-faced cat crept forward toward the girl.

Benedict Fate maintained her in happy unconsciousness of the dread presence sneaking stealthily upon her. She did not know when the lion paused at her side. She did not hear the sniffing of his nostrils as he smelted about her. She did not feel the heat of the fetid breath upon her face, nor the dripping of the saliva from the frightful jaws half opened so close above her.

Finally the lion lifted a forepaw and turned the body of the girl half over, then he stood again eyeing her as though still undetermined whether life was extinct or not. Some noise or odor from the nearby jungle attracted his attention for a moment. His eyes did not again return to Jane Clayton, and presently he left her, walked over to the remains of Taglat and, crouching down upon his kill with his back toward the girl, proceeded to devour the ape.

It was upon this scene that Jane Clayton at last opened her eyes. Inured to danger, she maintained her self-possession in the face of the startling surprise which her new-found consciousness revealed to her. She saw

THE PARAMOUNT.

"SHOULD A WOMAN TELL?"—One of the most intensely dramatic pictures ever produced is today's feature attraction. Picturing the setting of the superb theme, not in the high places, but among every-day honest and blunt seafaring folk, this master drama of the screen has a universal appeal, one which, without the veneer of riches, will reach and impress the heart of every man or woman who sees it.

THE SOISSON.

"THE FLAME OF THE DESERT"—Starring Geraldine Farrar, supported by an all star cast, is being presented today. Picturesque Egyptian streets crowded with surging mobs of natives on the eve of an uprising, magnificent scenes of a mysterious ritual celebration participated in by thousands of Islamites; a thrilling fight in a pitch-black tomb, between two white men and a horde of native insurgents; a woman's mad dash across the Sahara desert to save her brother and sweet heart; these are a few high lights in a spectacle brimful of color, romance and swift, cumulative action.

LUMBER OUTLOOK TAKES ON A MORE CHEERFUL ASPECT

"High Prices and Lessened Consumption Will Enable Annual Growth to Keep Pace With Demand."

"The country is drawing upon its forest capital at the rate of 80,000,000 to 70,000,000 feet annually," writes H. S. Betts of the United States Forest Service, in discussing the timber resources of the United States. "Long before the present enormous forest resources are eaten up, however," he says, "it is more than probable that readjusting economic conditions, particularly higher values for timber and a lower per capita consumption, will reduce the annual drain to an amount not more than the annual growth. With its enormous areas of non-agricultural land—apparently best suited to the production of timber—it is probable that the United States will not only supply its own needs, but continue to be a large exporter of timber. For the next 30 or 40 years at least, there is no question as to the ability of the United States to furnish high-grade structural timber and lumber from its Southern and Western forests to meet almost any demand for such material from any portion of the world."

A careful estimate of the timber stand gives 2,826,000,000,000 feet as the total present amount of standing timber suitable for the manufacture of lumber. The original stand has been estimated at 5,200,000,000,000 feet; of the difference about one-third has been destroyed by forest fires, one-third lumbered and one-third wasted. Since 1905 the lumber cut of the country has been decreasing from nearly 45,000,000,000 feet in 1909 to about 32,000,000,000 feet in 1918, and it is estimated that the 1919 cut will be no larger. In fact, production throughout the year has been running considerably below normal, even in the most favorable season.

A national forest policy, which will concern itself largely with conserva-

tion, particularly from fire losses, and with a scientific method of public reforestation, is urgently needed, but the belief that timber is scarce and that there is not a sufficient supply for building and other purposes is said to be erroneous. Some stocks are low and production during the year has been held down by high operating and labor costs, and in some sections by unfavorable weather.

DAWSON OPERA HOUSE.

"THE WOMAN ON THE INDEX"—Starring Pauline Frederick, is being shown today. Miss Frederick, as Sylvia Martin, is accused not only of the murder of her husband, but for his exploits as a crook, as well. "Settling on the witness stand," her muscles tense, her eyes staring. Suddenly a glimpse into her mental condition is shown. She imagines that everyone is accusing her. To present this fact to the audience with graphic effect, Director Honley surrounded Miss Frederick with hands pointing at her. They come from all sides, and are like swords about to stab her. Only hands are seen against a black background.

10 HENS LAY 8 EGGS A DAY. HOW IT'S DONE

Mr. Davis shows how to Wake Up Idle Hens. Easily tried. "I have 10 hens and was getting 1 and 2 eggs a day. Since using Don Sung, my hens have improved so much that I am now getting 1 and 2 eggs. The results have been wonderful."

Henry Davis, 1224, 5th St., Newport News, Va.

Mr. Davis wrote this letter in February, after a severe test in the cold weather. "Try it," he said, and watch your hens stop loafing and start laying. Here's our offer: Give your hens Don Sung and watch results for one month. If you don't find that it pays for itself and pays you a good profit besides, simply tell us and your money will be promptly refunded. "Don Sung," (Chinese for egg-laying) works directly on the egg-making organ, and is also a splendid tonic. It is easily given in the feed, improves the hen's health, makes her stronger and more active in any weather, and starts her laying.

Try Don Sung for 30 days and if it doesn't get you the eggs, no matter how cold or wet the weather, your money will be refunded by return mail. Get Don Sung from your druggist or poultry remedy dealer or send 50 cents for a package by mail prepaid to: Dugger Co., 220 Columbia Bldg., Indianapolis, Ind.—Adv.

The relatives and friends of Ohiopyle were shocked to hear of the death of Mrs. J. C. Bailey of Confluence, and have their heart felt sympathy for the family as Mrs. Bailey leaves a host of friends in this community.

T. W. Fleming is able to be about his home and store again after a recent illness.

NOSE CLOGGED FROM A COLD OR CATARRH

Apply Cream in Nostrils To Open Up Air Passages.

Ah! What relief! Your clogged nostrils open right up, the air passages of your head are clear and you can breathe freely. No more hawking, snuffling, mucous discharge, headache, dryness—no struggling for breath at night, your cold or catarrh is gone.

Don't stay stuffed up! Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head, soothe and heal the swollen, inflamed mucous membrane, giving you instant relief. Ely's Cream Balm is just what every cold and catarrh sufferer has been seeking. It's just splendid!—Adv.

FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy.

Any druggist can supply you with Zemo, which generally overcomes skin diseases. Eczema, itch, pimples, rashes, blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable.

Large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.

OF INTEREST TO WOMEN

This is a Short Letter, but it Brings a Message of Importance to every Woman.

Woodford, Va.—"I took Lydia E. Pinkham's Vegetable Compound and Liver Salt before my child was born and it did wonderful work for me. My baby weighed 12 pounds when born and I did not suffer many pains. You can publish this letter if you wish for I would not be without your medicine before child birth."

Mrs. JOHN LEBRON, Woodford, Va.

The reason why Lydia E. Pinkham's Vegetable Compound is so successful in overcoming women's ills is because it contains the tonic, strengthening properties of good old-fashioned roots and herbs, which act on the female organism.

Women from all parts of the country are continually testifying to its strengthening, curative influence, and it contains no narcotics or harmful drugs. It is a safe medicine for women.

If you want special advice write Lydia E. Pinkham Medicine Co., confidential, Lynn, Mass. Your letter will be opened, read, and answered by women only.

Rheumatism

A Home Cure Given By One Who Had It

In the spring of 1888 I was attacked by rheumatism and inflammation of the joints. I suffered as only those who have it know, for over three years. I tried remedies after remedies, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted, and even bedridden with rheumatism, and it effected a cure in every case. I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for cure of curing your rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today.
